Dealing with Uncertainty

A dialogue in Europe

In which areas of your life are you uncertain?
How can uncertainty successfully be navigated?

Uncertainty affects all of us on various levels of life. For one week we will share thoughts and ideas on the topic and learn from each other in a trusting community on an equal footing.

Apart from that, we will get the opportunity to develop interdisciplinary strategies of dealing with uncertainty. You can expect exciting inputs from experts, practical workshops, and much more...

You are between **18 and 30** and want to develop your skills & deal with uncertainty, get to know people from all over Europe, discuss, think along with others in a strong sense of community and create new ideas?
Then this is the right place for you!
